w: <https://vishpatel.com>

Passionate and versatile Full-Stack developer with an innate drive to build high-quality, impactful solutions. Thrives on solving complex problems and delivering exceptional UX with a true passion for crafting reliable, scalable products. Outspoken, detail-oriented, and fiercely adaptable, a team player who uplifts morale and excels at leading initiatives, mentoring teams, and advocating for technical quality.

Employment

AND Digital

Senior Product Developer (Consultant)

London

Oct 2018 - Ongoing

- Proven ability to adapt to new challenges and deliver high-impact solutions with speed and creativity, across multiple successful products and client engagements.
- Fostered strong relationships with clients and stakeholders by offering thoughtful guidance on product and technical strategy, driving impactful outcomes.
- Championed team success by mentoring peers, advocating for best practices, and instilling a passion for quality and innovation

"Vish demonstrates his quality through the value he delivers on client, the leadership he displays, and the support he provides to others, on both client and internally"

Key Project: Reward Platform - IAG Loyalty

Typescript, Next.js, React, Express, AWS, Terraform

May 2023 - Ongoing

- Enhanced app performance, accessibility, and reliability to meet major release requirements for British Airways.
- Transitioned the platform to a Next.js architecture, significantly improving scalability and maintainability
- Championed the integration of tools like Contentful for managing workflows and created frameworks for concise and valuable experimentation.
- Led the successful integration of the app into a unified cloud solution, and advocated for further continuous improvement on the solution.
- Delivered on high-priority promotions work by innovatively designing data controlled solutions, presenting them to align the entire platform team.

"Vish isn't just a great developer; he's a fantastic collaborator who elevates team morale and delivers the trickiest, highest-value tasks with confidence and passion."

Key Project: Collaboration Hub - SAP Signavio

Typescript, React, GraphQL, Express, Webpack, Kubernetes

Oct 2020 - Mar 2023

- Delivered complex, high-value features for a business process management platform while maintaining high-quality standards under tight deadlines.
- Led the implementation of a micro-frontend solution, enabling scalable integration across multiple services and future-proofing the platform for other products.
- Earned client and team trust as a go-to expert, delivering production-ready solutions with speed and precision, while prioritising customer-focused solutions.
- Led critical initiatives, including the SAP rebranding epic and development of shared modules, showcasing leadership in both technical execution and cross-team collaboration.

"Vish's ability to deliver good quality code at a fast pace, while mentoring others and considering customer impact, makes him an exceptional team player."

AND Digital

Internship

London

Sept 2016 - Sept 2017

Gained hands-on experience as an intern at a growing consultancy, developing internal tools and delivering small pieces of client work, while learning the benefits of agile delivery and embracing every training opportunity available. Finished off by leading the rebuild of the AND website and delivering a full CMS solution for the marketing team.
